Italian citizen (EU) | Currently enrolled at Tilburg University

PROFILE

BSc student in Entrepreneurship and Business Innovation at Tilburg University with four years of hands-on supply chain and operations experience. Co-founded Anywhim at 19 and helped scale it to EUR 1,000,000 in annual turnover in under three years, managing a supplier network of over 50 partners across seven European countries and roughly 3,500 units of stock across four stores and a central warehouse. Used to keeping a network of that size running through clear work instructions, structured Excel reporting and consistent supplier communication. Strong interest in the semiconductor supply chain and in how ASML coordinates a supplier base at scale.

WORK EXPERIENCE

Co-Founder & Commercial Director

Anywhim (Ralf Srl), Mantova, Italy | April 2022 - December 2024

- Managed a supplier network of over 50 partners across Spain, Czechia, Poland, Italy, France, Germany and the Netherlands, covering supplier selection, negotiation, inbound logistics and delivery follow-up.
- Controlled inventory of approximately 3,500 units across 150 SKUs, distributed between four retail locations and a central warehouse, including allocation between sites and stock replenishment.
- Wrote and maintained the standard operating procedures and work instructions used by staff for stock control, cash reconciliation and daily sales reporting, and revised them as the business scaled from one location to four.
- Built weekly and monthly reporting in Excel (sales by location, margin, stock levels, supplier delivery performance) and used it to drive procurement, allocation and staffing decisions.
- Co-founded the business at 19 and scaled it to EUR 1,000,000 in annual turnover in a little over two and a half years, alongside a co-founder and three partners who joined later. Revenue mix at peak: 85 percent physical retail, 10 percent e-commerce, 5 percent B2B.
- Opened four retail locations (Mantova, Riccione, Cortina d'Ampezzo, Milano Marittima), managing each rollout end to end: site selection, fit-out, supplier setup, recruitment and opening.
- Owned the HR function for a team of 7 at peak across all sites, personally recruiting 3 of them: hiring, onboarding, training, scheduling, performance conversations and payroll administration.
- Acted as product owner for Whimtrade, the internal operations system covering stock, allocation between sites and daily sales reporting, built with an external software house: mapped the process, wrote the workflow and design documentation, and rolled it out across all four locations.
- Managed relationships with banks, insurers, landlords, utility providers and external legal, accounting and payroll advisors.
- Launched the company e-commerce store on Shopify and a smaller B2B line of consulting services and goods supply.

Sales Representative

Facchini Grandi Impianti Srl, Italy | April 2025 - August 2025

- Managed a portfolio of over 50 B2B clients, generating approximately EUR 150,000 in revenue over five months.
- Prepared quotations and coordinated with technical colleagues on specifications, lead times and delivery for professional kitchen equipment in the hospitality sector.

Founder

TheSneakersBase, Mantova, Italy | September 2020 - December 2021

- Founded and ran a resale business in rare sneakers and limited-edition streetwear at 18, handling sourcing, pricing, authentication and fulfilment, and expanded it into wholesale supply for physical and online retail partners.

EDUCATION

BSc Entrepreneurship and Business Innovation

Tilburg University, Netherlands | August 2025 - present

Secondary school diploma, Liceo Linguistico

Liceo Virgilio, Mantova, Italy | 2021 | Final grade 84/100 | English, French and Chinese culture

AWARDS

1st Place, ENGAGE.EU International Entrepreneurship Pitch Competition

UNWE, Sofia, Bulgaria | 2026

- Selected to represent Tilburg University in an intensive international programme with students from nine European partner universities.
- Led an international team to first place overall with a business pitch developed during the programme.

SKILLS

Supply chain and operations: Supplier selection, negotiation and performance follow-up across multi-country networks; inbound logistics; warehouse and inventory control; multi-site allocation and replenishment; multi-site operational rollout.

Data and reporting: Microsoft Excel (advanced: pivot tables, lookups, multi-site sales, stock and supplier dashboards), PowerPoint, Word, Google Workspace. Power BI: currently building working proficiency.

Process and documentation: Process mapping, standard operating procedures and work instructions, document control, onboarding and training coordination, continuous improvement of day-to-day workflows.

Stakeholder management: Suppliers and wholesale partners, banks and credit institutions, insurers, landlords, external legal, accounting and payroll advisors, retail teams.

Commercial and financial: B2B sales, contract drafting, financial reporting, balance sheet and payroll analysis, tax compliance, Italian and EU corporate structures.

Systems and tools: Shopify (Online and POS), Notion, Superbill (automated accounting and document management), Microsoft 365, Windows Server administration, domain and hosting management.

Languages: Italian (native), English (C1, IELTS certified), French (professional reading comprehension, conversational).

Certifications: IELTS C1 English; OMPT-A Mathematics; driving licence categories B and AM.

INTERESTS

Semiconductor industry and supply chain, including independent reading on the sector and its geopolitics: Chip War (Chris Miller) and Silicio (Federico Faggin). Also follow developments in AI and large language models closely, and use them daily in research and in building software. I write about what I read at marigiacomo.com.
